Fahrzeugtechnik

Today's vehicles are safer, more comfortable and more efficient - but also much **more complex** due to the increasing number of electronic and electrical systems. On the basis of many years of experience and **know-how**, PTS-Prüftechnik masters the exemplarily listed tasks with the highest demands, whereby our **partners save time-consuming and costly correction loops** and thus important resources.

Fixed to the vehicle in all facets: At PTS Prüftechnik, the focus is on the entire vehicle, from the powertrain, through engine and transmission technology, chassis and vehicle body, to the bodywork, in order to **advance the mobility of tomorrow**.

From the first formulation of a customer requirement to small series production, all work steps are carried out by us on our **own initiative**. From our partners we are appreciated for it, therefore you entrust us also complicated or unusual tasks, which we solve in time and under the use of most modern technologies. Due to our **unique PTS structure principle** and the close cooperation with other company divisions such as design, we build prototypes for our customers or manufacture components in small series.

We are also active in the following special areas:

- **Project Management:**
 - Coordination and supplier management
 - Structuring of communication relationships and work processes
- **Processing and production:**
 - Processing of special materials e.g. Inconel 625
 - Hot forming of steel, magnesium and thermoplastics
 - Joining of aluminium, magnesium and steel with cold joining process
 - Development of tools and workshop equipment, e.g. for motor sports
 - Production of complete assemblies, add-on parts and bodies, e.g. for Gran-Turismo vehicles
 - Replacement and installation of original parts for historic vehicles
- **Evaluation and reporting**
 - Installation and assembly investigations
 - Analysis of installability and presentation of proposed solutions

When would you like to find out which advantages our services offer you?

Facing the future together with PTS-Prüftechnik!
